

# California Soul

## Wasabi, Sugar Hill & Maria Lue

Like a sound you hear  
That lingers in your ear  
But you can't forget  
From sundown to sunset It's all in the air  
You hear it everywhere  
No matter what you do  
It's gonna get a hold on you California soul, California soul  
They say the sun comes up every morning  
And if you listen carefully  
The winds that ride on the high time  
Whistle a melody And so the people started to sing  
And that's how the surf gave birth untold  
California soul, California soul When you hear the beat  
You wanna pat your feet  
And you've got to move  
'Cause it's really such a groove Puts a brand new time of thinking in your mind  
And you can't go wrong  
'Cause you're happy all day long  
California soul, California soul They had the melody and the beat  
But it still didn't seem complete  
Until they saw two lovers kissin'  
They knew just what was missin' So happy they were rockin' and reelin'  
Because they added that lovin' feeling  
To California soul, California soul  
California soul California  
California  
California  
...
