Day for Night

Spock's Beard

Day for night I can't wait 'til the time is right

Like a gun waits for war

Like the sun waiting for a lightPound away

Get it done in just half a day

'Neath the sweltering sky

Get it done, don't ask why, whyDon't you want to live my way?

Living day for night

Don't you want to live my way? Why you want to keep trying?

You never get it right

When you could be living day for nightLive my dream

There's no dancing in between

Why not let it go?

There's no sense being so extremeAct instead

There's no life living in your head

The director's long gone

Still the play goes on

And on and on, come onDon't you want to live my way?

Living day for night

Don't you want to live my way? Why you want to keep trying?

You never get it right

When you could be living day for nightDon't you want to live my way?

Don't you want to live my way? Why you want to keep trying?

You never get it right

When you could be living day for nightYour dreams were disappearing

So you disappeared into your head

There's no freshness in your feelings

So you feel like going back to bed

As the mercury rises

There are still some surprisesDay for night there's no time

There's no end in sight

Not a moment to lose

There's no voice you can't choose

Come onDon't you want to live my way?

Living day for night

Don't you want to live my way? Why you want to keep trying?

You never get it right

When you could be living day for nightDon't you want to live my way?

Don't you want to live my way?

Don't you want to live my way?
We could be living day for nightDon't you want to live my way?
Don't you want to live my way?
Don't you want to live my way?
Day for night
