

# Fistful of teeth

## GWAR

Too soon the killing was over  
The stench of death was all that remained  
Death he commands in this poison land  
Distributing pain  
The choking sky, black buzzards fly  
Scanning the dead for fresh meat  
All I have to show for my woe is a fistful--a fistful of teeth  
The roar of battle  
Oh, how I cherish the sound  
Of splintered shields and bursting bowels  
As we trample the town  
And then I saw you  
You had tears in your eyes  
And when we impaled your family I felt I should apologize  
Soon we mated with fury  
Our mutant baby had a worm for an arm  
It's face was blistered and furry  
But not without charm  
But when one day my mood changed  
And I melted your brain  
A fistful of teeth is all that remains  
I murdered you  
And ate your soul  
The bleakest black  
The deepest hole  
I scream out your name  
Or at least what I think you were called  
Fate's finger gives me the blame  
If you saw my tears I know you'd be appalled  
A fistful of teeth  
As I eat our baby I'm thinking of you  
You are not here to feed me  
So I ate our baby, I wish we'd had two  
I tried to love you  
But brought only pain  
A fistful of teeth is all that remains
