

Long Way Down

Swollen Members

And it's a long way down
It's a long way down
It's such a long way down
To the place where we started fromYo, I'm still trying to figure out this Venus and Mars thing
But every time I see you, all I hear is a harp string
We chilled last night, I had to record this
Listen to Portishead making love in the forestWe're not stuck in this orbit, it's gonna work out for us
So gorgeous like the voice of the woman gracing the chorus
A newborn in its pure form gentle and precious
We connect on more than just mental, don't let this shit stress usI'm okay if you're okay, I know it sounds cliché
But we built this whole relationship from sand and clay
Now we're so strong, we've got a concrete bond
And it completes so solid, I had to write this songAnd it's a long way down
It's a long way down
It's such a long way down
To the place where we started fromWe met when we was young, two hearts that beat as one
I knew it from the start not till death do us part
Nothing compares to you
(Keep blazin')I'm a fine young cannibal and you drive me crazy
I know your looks attracts guys but that don't faze me
Soul mate, make me feel like they got nothing on me
Just to taste your lips plus your voice is calmingI know it's hard babe 'cause I'm always on tour
But my love is fucking pure and that's for sure
Been around the world, feel like I've covered whole earth's surface
Stressed out to the point of asking if it's worth itSometimes it trips me out kid 'cause you're so perfect
I gotta keep working, striving and building
So we can get a house, have kids and grand children
Till then I'll make sure you don't regret
That you gave me another chance, girl I won't forgetIt's a long way down
It's a long way down
It's a long way down
It's a long way downListen to me man, make sure you love what you do
'Cause it's gonna take a time for anyone to get to the ultimate goal
And as long as you love what you're doing
Doesn't matter how long it takes and when it finally does happenTry to remember how hard you worked to get
there
And appreciate that shit
Keep climbing, BattleaxeI'm shark where you swim sharp as a dart in your skin
We've been given a title that's not hard to defend

Not just my partners my friends, see this from start till the end
With words that alter the wind 'cause we assault with a pen
And hit with the song, no problems here, we getting
along
Take turns from learning from our mistakes, admit when we wrong
And everybody knows how to fight to shows that are tight
A cobra that strikes, nobody's sober tonight
Take a walk on the wild side, give me beats and I'll never die
I'll hold your mind like a hypnotist, swing the watch into overdrive
There's no rabbit or wand, my habits are ripping a song
The magic comes from the act of people waving their arms
I'm as sane as I was, given and receiving the love
Living and breathing this stuff with Rob, the Viking on drums
Battleaxe warriors, Madchild Prevail
This is music for ya'll bars notes and scales
And it's a long way down
It's a long way down
It's such a long way down
To the place where we started from
