Dan Hicks And The Hot Licks

Have you seen him?

Willie Deadwilder and Rebecca

They knew that they loved one another

Gonna have a real good time

No more sad, sad, bad times

It's all they've been waiting for

Someone to knock at the door

Willie was shot once in his mind

His cry out saved his own life

The second time was through the heart

The doctors pulled the bullet from inside

He had a job to do, he said

That's his way of life

Please don't bring him down

Please don't let him go

He's on the same side as you

He's just a little bit behind

I tell you there are some people living alone

I tell ya there are some people with nowhere to go

There are some people who don't believe in love

Willie and Rebecca prove them all wrong

A man named John wrote a song for me to sing

And the most beautiful flowers I have ever seen

He is a very good man

He has been an even very good man to me

I hope one day soon I will sing

Another love I still love, familiar face to me

A standing arch above my heart

I've never been to reach

He's laid my head on the bed

And told me sweetly, I am not

Crazy like all the others said

No he's not crazy like me

Please don't bring me down
Please don't let me go
My heart is a worried thing
Memories have planted seeds
Of the field I now want to reap and sow
I'm on the same side as you
I'm just a little bit behind, behind
Have you seen him?
Have you seen him?
