[Sample Ends]rapid transit, be moving too fast
you better get up off your ass
it's possible that this here is your last chance
the non stopper, the lil rhyme dropper
to step the I.N.S crew is improper
We loom spots, terrorists hiding behind shadows
And the darkness Insolence crew desperado
I'm the last Prince of Babylon
Hell fire washed out with waterYou better get up you better stand up, 'cause
If you can't then you wind up in a world of shit
You better get up you better stand up, 'cause
If you can't then you wind up in a world of shitYo ma it's time for you to stand up kid...Well i don't care what you all heard
'Cause i will be on a terrorist mission
To rule the whole world
Siphon sight through sound
Smoking by the pound
I sniffed more gina than a blood hound
Don't like the way I look then dont stare

You dont like my attitude, i dont care
If you step on my shoes, you're gonna surely lose
Into your soul i will tearYou better get up you better stand up, 'cause
If you can't then you wind up in a world of shit
You better get up you better stand up, 'cause
If you can't then you wind up in a world of shit
You better get up you better stand up, 'cause
If you can't then you wind up in a world of shit
You better get up you better stand up, 'cause
If you can't then you wind up in a world of shitFists in the air, a rugged world thats not fair
Want to ask the tough question
Let's play truth or dare
Got a style thats unique, victory no defeat
World wide conquest, my mission
Your pain will be sweetYour crew can't test so praise the Don Dada
Your crew can't test so praise the Don Dada
Your crew can't test so praise the Don Dada
Your crew can't test so praise the Don DadaHardcore mastery verbally spitfire
One hit quitter tapestry with barbwire
Palms get burned when you lay your hands down
Terrorism hits 'em once my squad lands down
I never lie, I never lie but when i stand accused
I deny, I deny can't take the heat repeat
And it gets a little hotterYou better get up you better stand up, 'cause
If you can't then you wind up in a world of shit
You better get up you better stand up, 'cause
If you can't then you wind up in a world of shit
You better get up you better stand up, 'cause
If you can't then you wind up in a world of shit
You better get up you better stand up, 'cause
If you can't then you wind up in a world of shitYour crew can't test so praise the Don Dada
Your crew can't test so praise the Don Dada
Your crew can't test so praise the Don Dada
Your crew can't test so praise the Don DadaYou better get up you better stand up, 'cause
If you can't then you wind up in a world of shit
You better get up you better stand up, 'cause
If you can't then you wind up in a world of shit
You better get up you better stand up, 'cause
If you can't then you wind up in a world of shit
You better get up you better stand up, 'cause
If you can't then you wind up in a world of shit
