

Helping Hand

Foghat

Been ignored and I been abused
Been mistreated and I've been misused
Been discouraged and turned aside
Overloaded when my hand's are tied That's the time, when I need a hand
A helping hand, I need a helping hand Things I do are criticized
Ripped to pieces and analyzed
I tell the truth and they call me a liar
Exaggerator and a magnifier That's the time, I need a hand
A helping hand, I need a helping hand There were times when I lived alone
Lock the doors, disconnect the phone
I warn everybody, tell 'em not to call
Complete isolation, I need most of all
But after awhile I need some company
I tell my friends, come see about me That's the time, when I need a hand
Need a helping hand, need a helping hand Need a helping hand, I need a helping hand
Need a helping hand, I need a helping hand I need somebody to stand by me
I need somebody to stand by me I need a hand, I need a helping hand
I need a hand, I need a helping hand I need somebody, I need somebody
I need somebody, hey, to stand by my me Whoa, I need somebody, I need somebody
I need, I need, I need, I need, I need, I need, I need somebody
