

# Ice King

## Res

Although you're an Ice King  
Everything that you gave to me  
Comes from the destitute and the torn  
I can't live this life no more Just another wasted on, like a fallen star in Babylon  
You said, I was your princess baby  
I told you certain things you can't possess  
So let me go, let me go, 'cause I, I've given until I break  
The ground beneath us quakes  
How can we grow when we've only begun?  
Forsaken beneath the sun I've given until I break  
The ground beneath us quakes  
How can we grow when we've only begun?  
Forsaken beneath the sun Although I've seen your wickedness  
I still love your effervescence  
And I know that loving you don't make no sense  
But I guess that's why I like it Just another priceless pawn, all our dreams are now forgone  
You said, I was your princess baby  
I told you certain things you can't possess  
So let me go, let me go, 'cause I, I've given until I break  
The ground beneath us quakes  
How can we grow when we've only begun?  
Forsaken beneath the sun I've given until I break  
The ground beneath us quakes  
How can we grow when we've only begun?  
Forsaken beneath the sun Although you're an Ice King  
Everything that you gave to me  
Comes from the destitute and the torn  
I can't live this life no more I've given until I break  
The ground beneath us quakes  
How can we grow when we've only begun?  
Forsaken beneath the sun I've given until I break  
The ground beneath us quakes  
How can we grow when we've only begun?  
Forsaken beneath the sun
