You

James Cavern

Summertime's made for two
You left me thinking about you
Why? Why? You leave me cold
You left me for a man before I spoke

I took my chances on you baby
Oh that man he treats you good
Sometimes love amounts to nothing
'Cause the one thing you thought you had
Isn't what you should

'Cause I don't want you
I don't need you
You took away all my love now
I don't want you
I don't need you, no more
Cause I don't want you, baby
I don't need you
You took away all my love
I don't want you
I don't need you, no more

You see you're with me
Better than me
Ooh how does it make you feel

I'm gonna take my path back on the road
And in my life
Until I find my soul

You're something bad
I want you out
You're nothing to me
You took your space away from me

And I should let it be
I should let it be
I should let it be
I should let it be

'Cause I don't want you
I don't need you
You took away all my love now
I don't want you
I don't need you, no more
Cause I don't want you, baby
I don't need you
You took away all my love
I don't want you
I don't need you, no more

You better move on now, girl
You better move on now, girl
You better move on now, girl
You better move on now, girl
