

Stronger (feat. A-F-R-O)

NGHTMRE

Smooth Groove, steadily tuned
Heavy never refused
Plenty of soothing amusing, music melodies Mic-snatcher, high colliding rhyme advancer
Nghtmre and afro, fight fair in battles Raw rhymes of dark matter
All types of jar scatter
Part-time and locked shackles
Parched dimes get off afro
Soft side and dark shadows Create a full rhyme, inspiration of like
It's the way that you'll vibe
With the pagin' of minds
Slow temple, soul monumental continental contempentalon par with the cause in the monumental
With a little bit of a simple kinda
Y'know i'm the rhyme the flyin' blind
Eyes open when the rhymes smokin' from the writin' Gentle giants shining on my bond the tracks
Saw fact, that relation then we put it on wax like that Yo check it, uh yo
I have the best head bobs of anybody you know
I let the rest get calm, then rock the buildin' with flow
I get the best set strong, stomp the ceilin' to the floor
Protect your headset, gon thro' ya neck to the show Keepin' panic to three and offer
To settle the beat to the proper pen, with the speed
When i'm off to blend with the breathe derogative
Hands in the dirt, art for the send with the verse
I'm talkin' the kindlin' of words and arcs
(???)
Talkin' a flow for nothin'
Soften a blow, use nothin'
A lot of people when us roll that roll right through the sufferin'
Spot some people when as roll i'm hopin' to be bludgeon
Shocked that people with that scroll erosion'll be comin' Next resurrection i've had the perfection
Learnin' the ropes, helpin' to step in the direction You would never guess this team would work
When 'fro's words bless and manifest this earth, uh Top notch soft spots watch watched locks knock stocked hot
blocks (this bit is a mess)
Pen and a pad, rhymin' it great tho
You best with the plan, I wouldn't say so
Correctin' a man you likely to take blows
Step in the sand, and rise a grave stone Grand awake and take base base rated base paid to play players make
