

Come To Me

Mark Lanegan

Come to me
'Light on my shoulder
Come to me
Burn your starry crown
Mmm, my dark angel
I've tried, I can't get over
'Cause when I think I'm climbing
I'm really so far down
Time takes a while
To break ya
And now only fire
Can wake ya
Oh, weeping willow
Coughing up my heart
Ask God to see my shadow
And kept us apart
Through my mind's every riot

Or revelation
(You've just now)
You've just now gone
As I arrive
(Every station)
At every station
Oh, come to me
(Come to me)
(Come to me)
Either early or late
I've learned this by habit
Now I know how to wait
(Ohh, yeah)
Come
Come to me
Aah, come to me
Come
(Ohh, yeah)
