Change Yourself

Glenn Hughes

Don't confuse me with the drama
Now and then you lose your karma
Don't you trust yourself at all the life you've lead?
Why do you keep looking back? You move aheadDon't throw your life away
You got so much to say
Anticipatin'In this crazy world you must change yourself
In this open road you must change yourself
In this crazy world you must change yourself
Nothing lasts foreverConfiscate your malady your blindness
Kill the root of evil and madness
You have worn the color black for far too long
So you go no turning back, you won't be wrongDon't throw your life away
You got so much to say
Anticipatin'In this crazy world you must change yourself
In this open road you must change yourself
In this crazy world you must change yourself
Nothing lasts forever but the songIn this crazy world you must change yourself
In this open road you must change yourself
In this crazy world you must change yourself
Nothing lasts foreverIn this crazy world you must change yourself
In this open road you must change yourself
In this crazy world you must change yourself
Nothing lasts forever but the song
Nothing lasts forever but the song
Nothing lasts foreverYou've gotta change yourself
Yourself
