In Deep

Fantasia

I'm not scared, yes, I bleed
If I tear it proves to me
The love I shared was worth every drop, drop, drop, drop
Lord knows I don't want this to stop,
NoI wanna go in deep with you
I wanna go in deep with you
I wanna feel your scars
And cherish every flaw
I wanna go in deep with youI wanna dig my nails into you
Strip you down to your truth
Pay your dark side, I take your sunshine through
I'll let you inside and you can have mine tooI wanna go in deep with you
I wanna go in deep with you
I wanna feel your scars
And cherish every flaw
I wanna go in deep with youI wanna go in deep
I wanna go in deep yeah ey
With you
I wanna go in deep
I wanna go in deep hey
With youI wanna go in deep with you
I wanna go in deep with you
I wanna feel your scars
And cherish every flaw
I wanna go in deep with youI wanna go in deep with you
I wanna go in deep with you
