

Overload (1987)

Zappacosta

This overload
I can hear your heels clicking on the sidewalk
Beating to the rhythm of my heart
Caught up to you
You're the only one I want I follow you home every night
Just to make sure that you get there alright
Baby it's true
Can't think of anything but you And what I need baby
Is a little bit of sympathy [CHORUS:]
You got me on my knees
I burn throughout the night
And I can't live without your love
Won't you help me cure this overload
Won't you help me cure this overload
Won't...yeh! Oh you got to know
You see me everywhere that you go
Doesn't that say something
Obsession's taken hold of me, yeah
All because of you
You've got to see me through
Can't take another night alone without you
Honey it's true
I am so hung up on you, yeah What I need baby
Is a little of your company [CHORUS:]
You got me on my knees
I burn throughout the night
And I can't live without your love
Won't you help me cure this overload
Won't you help me cure this overload
Yeaaaah! [INSTRUMENTAL] And what I need baby
Is a little of your sympathy [CHORUS:]
You got me on my knees
I burn throughout the night
And I can't live without your love
Won't you help me cure this overload
You've got to help me girl... this overload

Won't you help me cure this overload...
