

Excellent Things

Guided By Voices

Mirrors reflect only what we expect
Just what we wanna see
Flowers looking fresh
Garden grey on a mesh
??? warm ??? freeI filled up a jar with colourful capsules
Jewelry and rings
Notice how we constantly thrive on excellent things??? created a sway
Toward material needs
Television hums
Busy hand finding some
Two or three knuckles bleedBoats and trains and commercial flight airplanes
That whistle and sing
See how we persistently thrive on excellent things
