

Angel

Florida Georgia Line

I know you love a little late night
Just me and you glowing with the brake light
Silhouettes, sipping with a halo
Anything you want girl, just say so a little whisper off your lips, yeah
Said you're ready for the moonlight mix, yeah
I keep you spinning til you get your fix
Til the sky gets lit, til the sunlight hits, yeah Whoa oh oh I've been given, whoa oh oh a piece of heaven
Whoa oh oh yeah you're my angel, you're my angel tonight
I'm feeling her with a breath on the sky
Pretty girl I'm gonna make you fly
See I was burning but you saved my life
You're my angel, you're my angel tonight
Yeah I'm never gonna let you down (I got you baby)
I just gotta tell you now ('cause my heart can't wait girl)
You're my angel, you're my angel tonight And do you thing baby 'cause it's so hot
Bury these, yeah that's the sweet spot
Know your smoke, I'm gonna breathe it in girl
Maybe it's a sin but baby bring it back again, yeah Whoa oh oh I've been given, whoa oh oh a piece of heaven
Whoa oh oh yeah you're my angel, you're my angel tonight
I'm feeling her with a breath on the sky
Pretty girl I'm gonna make you fly
See I was burning but you saved my life
You're my angel, you're my angel tonight
Yeah I'm never gonna let you down (I got you baby)
I just gotta tell you now ('cause my heart can't wait girl)
You're my angel, you're my angel tonight A little whisper off your lips, yeah
Said you're ready for the moonlight mix, yeah
I keep you spinning til you get your fix
Til the sky gets lit, til the sunlight hits, yeah Whoa oh oh I've been given, whoa oh oh a piece of heaven
Whoa oh oh yeah you're my angel, you're my angel tonight
I'm feeling her with a breath on the sky
Pretty girl I'm gonna make you fly
See I was burning but you saved my life
You're my angel, you're my angel tonight
Yeah I'm never gonna let you down (I got you baby)
I just gotta tell you now ('cause my heart can't wait girl)
You're my angel, you're my angel tonight Yeah I'm never gonna let you down (I got you baby)
I just gotta tell you now ('cause my heart can't wait girl)
You're my angel, you're my angel tonight
