Got Paid

Katy B

Open my door and I scream like it's been ages
How ya doing girl? You look amazing
Oh my gosh, oh my gosh

New acrylics, gold studs with the red fade
Diva lipstick, liquid liner make you wanna say
Oh my gosh, oh my gosh

Friday never lets me down
So grab your coat, we're gonna hit the town
But I just got paid, I just got paid

Friday never lets me down
So grab your coat, we're gonna hit the town
But I just got paid, I just got paid

Hop in the cab, tell the driver "turn the music up"
Let the window shake, feel the vibration
Feel so free, feel so free

Straight to the floor, I let the beat mend my broken heart
No looking back, to the future I raise a glass
Down on three, down on three
One, two, three, go

Friday never lets me down
So grab your coat, we're gonna hit the town
But I just got paid, I just got paid

Friday never lets me down
So grab your coat, we're gonna hit the town
But I just got paid, I just got paid

You see I'm ready to let it go
Show that boy what he'll be missing, let him know
You see I'm ready to hear it loud
Show that boy that he'll be missing, missing out

You see I'm ready to let it go
Show that boy what he'll be missing, let him know

You see I'm ready to hear it loud
Show that boy that he'll be missing, missing out

Just got paid, stroll through the city
I wanna spend some, put the rest in the kitty
I'm rolling with K B, so jiggy
My name's William, I said I'm gonna make a milly

Hard work is paying off, 'k, now they pay us
It's like paying off day, radio play us
Feel good 'cause I know I work hard for this
Been grafting a lot from the start of this

And then splash like alakzam and then raise it
We shop 'til we drop, let's face it
Friday is here and it's a great thing
Got an appetite for fun love to taste

The time, I don't waste it, I like my life basic
And whatever the case is
If I see a chance to win I'm gonna take it
And it's working right, we're gonna make it

Friday never lets me down
So grab your coat, we're gonna hit the town
But I just got paid, I just got paid

Friday never lets me down
So grab your coat, we're gonna hit the town
But I just got paid, I just got paid

Friday never lets me down
So grab your coat, we're gonna hit the town
But I just got paid, I just got paid

Friday never lets me down
So grab your coat, we're gonna hit the town
But I just got paid, I just got paid
