Starlight

Flux Pavilion

(Verse)
We could be starlight when the world wont turn for no one
Circle the spotlights when you aint got nothing to prove
We could be starlight(Chorus)
We could be starlight
We could be starlight(Verse)
We could be starlight when the world wont turn for no one
Circle the spotlights when you aint got nothing to prove
It spills then she appears from the earth when blind
Circle the nightlife when you aint got nothing to lose(Chorus)
We could be starlight
We could be starlight(Verse)
We never ever make a sound
My feet are falling on the ground
Theyre rising so much from the cloud
The water seems to turn so slow(Chorus x2)
We could be starlight
We could be starlight
