W.O.R.S.H.I.P

Souljahz

Workin on really servin Him in praise
(Worship)
Workin on really servin Him in praise
(Worship)
Workin on really servin Him in praise
(Worship, worship, worship)
Workin on really servin Him in praiseGaze into His eyes, fantasize the last days
The last phase of Gods untouchable plan
Until then, worship His name
Through this black pen, writin rapsOr anyway that I can, still praisin God
'Cause thats the way that I am, you might call me odd
But thats aight, we are Souljahz of the Lord
And we are ready to fight, neva will we eva stopWe love Jesus from the bottom of our hearts to the top
Pumpin Gods blood through our veins
Handcuffed to Jesus Christ and feet shackled in chainsAnd we dont wanna be free, we just wanna see
The Savior and Creator of the heavens and seas
Gs not necessary because we
Only need two knees to bow down and worship G O DWorkin on really servin Him in praise
(Worship)
Workin on really servin Him in praise
(Worship)
Workin on really servin Him in praise
(Worship, worship, worship)
Workin on really servin Him in praiseWhen I come through Im breakin buildings
And Im makin walls fall
Sit back and relax 'cause we got more in store for yall
So listen up and listen goodWe gotta praise God through our whole neighborhood
I should slow it down, so you can understand
What this flow is all aboutAnd we can break down these sounds and take time to meditate
On the word of God so your wisdom can escalate
When you gonna put your foot down, take a note now
Acceptin God is your only hope nowReach down, deep down in your heart
You talk the talk but do you walk the walk?
You say you love God but do you really love God?
Will you still love God when situations get hard?
Or will you walk away, or will you get down and pray
And worship the Lord almighty like we?Workin on really servin Him in praise
(Worship)
Workin on really servin Him in praise

(Worship)
Workin on really servin Him in praise
(Worship, worship, worship)
Workin on really servin Him in praise(Worship)
The Lord almighty
Aint it odd people take God so lightly, check it
Satan is waitin to fight me and you might say
That Im dumb for walkin away, I chose the right wayDespite the obstacles that stand
In my way dont play praise God with two hands
Lift 'em up to the sky, head to the ground
Every knee will bow down, to Jesus dont play aroundAnd if you say you found God then prove it
Profess it with yo tongue you gotta mouth, son use it
Jesus is the name above all names
Forget a famous superstar, God possess all fameHe posses all thing around me, around me
Word, His Holy words neva seize to astound me
And everywhere I look and everywhere I go
