Powder

Birdmask

Lying soaked in sweat tonight
Your knuckles white, you try to fight
The need for more to get you by
You've had enough you wonder why
Even now your body criesFor chemicals to blind your eyes
Wonder can you stay this high
When the cells begin to die
Forever, forever, foreverCrush it up, crush it up
Take it down, take it down
Smash it up, smash it up
Falling downSwallowed like the medicine
That's broken down my happy friend
Wonder if he'll let me in
If I come to see him when
He's better, he's better, he's betterCrush it up, crush it up
Take it down, take it down
Smash it up, smash it up
Falling downCrush it up, crush it up
Take it down, take it down
Smash it up, smash it up
Falling downThere's power in the powder
Dissolving in your guts
There's power in the powder
Dissolving in your gutsCrush it up, crush it up
Take it down, take it down
Smash it up, smash it up
Falling downCrush it up, crush it up
Take it down, take it down
Smash it up, smash it up
Falling downCrush it up, crush it up
Take it down, take it down
Smash it up, smash it up
Falling downCrush it up, crush it up
Take it down, take it down
Smash it up, smash it up
Falling down
