

Until Her Heart Stops

Hawthorne Heights

I remember that time all through the night
Trying not to close my eyes again
Pretending that all he got was in a stolen car
Trying not to pull over and cry My eyes so red, I just want to die
Kill me with your words, kill me one last time
Cut out my heart and throw it on the floor
For everyone to see Remember you said
"Kiss me sweetheart before you go again"
Remember you said
"Kiss me sweetheart before you go again" Don't say it's over this time
Don't say it's over this time She's waiting on the inside
For me to call again
Waiting for her just to say goodbye
One last time waiting on the inside I'm supposed to say anything at all
To make you want me back
If I had three wishes, I wish them all on you
I wish you away from me Supposed to say anything at all
She's waiting on the inside
For me to call again
Waiting for her just to say goodbye
