(Life May Be) A Big Insanity

Sandra

Sun came up this morning broke into my room
I turned the TV on
The sun was red I heard about the news
That turned me upside downIt's hard when you see
It there's torture and pain
I still have this feeling
There's something left to sayLife may be a big insanity
But love will conquer hate to all eternity
Don't you know we are strong?Life may be a big insanity
But there is more to life than reality
'Cause our hearts make us strongPicking up the phone the pictures always change
Children playin' in the streets
Talking to somebody I can only watch
'Til I get on my feetDark times and mean crimes
They can't beat my dreams
The eyes of a child tell me
Something's left to sayLife may be a big insanity
But love will conquer hate to all eternity
Don't you know we are strong?Life may be a big insanity
But there is more to life than reality
'Cause our hearts make us strongIt's hard when you see
It there's torture and pain
I still have this feeling
There's something left to sayLife may be a big insanity
But love will conquer hate to all eternity
Don't you know we are strong?Life may be a big insanity
But there is more to life than reality
'Cause our hearts make us strongLife may be a big insanity
But there is more to life than reality
'Cause our hearts make us strong
