

This Ain't It

Yankee Grey

(Wally Wilson/Paul Nelson/Larry Boone)There's something funny 'bout the two of us

We never fight, ah we never fuss

We just can't get enough if you get my drift

Yeah from what I've heard about love, this ain't itI make you laugh and you make me smile

We stay together and go in style

Things get a little bit wild everytime we kiss

So from what I've heard about love, this ain't it'cause love can break your heart I've heard

Drive you to drinkin' crazy or worse

Talk about trouble, love is at the top of the list

But girl you know we fit like a glove

We're side by side when push comes to shove

From what I've heard about love, this ain't itI've seen it in the movies, read it in the books

Hearts goin' under everywhere you look

Fire's burning out, but baby me and you

We're the exception to the rule'cause love can break your heart I've heard

Drive you to drinkin' crazy or worse

Talk about trouble, love is at the top of the list

But girl you know we fit like a glove

We're side by side when push comes to shove

From what I've heard about love, this ain't itYeah from what I've heard about love, this ain't it yeah

Yeah from what I've heard about love

No from what I've heard about love

Yeah from what I've heard about love no no this ain't it
