

# Full of Hell

## Entombed

I got a 24-lane highway going straight through my head  
A peace of mind like a brainstorm and thoughts that knock me dead  
I've got sympathy for the devil and demon is in my vein  
I'm organized chaos but don't call me stupid, I'm insane  
At my worst, I'm at my best  
Wide awake but let sanity rest  
I'm full of hell  
All kinds of hell  
I've got a heart like a graveyard, they are dying to get in  
I'm from a lot of different places and I'm full of hell and sin  
I'm offended by human nature, told the truth by someone who lied  
There are times when not being human would be a source of inner pride  
At my worst, I'm at my best  
Wide awake but let sanity rest  
In my heart and deep within  
I've got, it's fire under my skin  
I'm full of hell  
All kinds of hell  
I'm full of hell  
All kinds of hell
