

# Checkmate

Jesse McCartney

Yeah yeah oh yeah yeah How do you feel when the king has gotta lie down  
When you found out and see that this is something that couldn't work out  
You thought that you'd be ready  
But I knew that you always had your doubts I just wanted to be the one to save you, the one that knew how  
But this all would have an ending, it was so clear to see  
'Cause you couldn't wrap your head around all the jealousy That's why I'm calling checkmate, checkmate  
I'm calling checkmate on you, baby  
Oh I'm calling checkmate, checkmate  
You are gonna lose 'cause you chose to make the moves you made Checkmate, checkmate  
I'm calling checkmate on you, baby  
Oh I'm calling checkmate, checkmate  
Girl you will always lose when you choose to make the moves you make Yeah oh Said, how are you feeling  
when the king has gotta lie down?  
'Cause you put up a wall around your castle and I just can't climb around I can hear you on the other side of it,  
screaming  
But you're too afraid to face the demons  
So you let your heart just take the beating  
And I'm the one who pays for it, think I gotta get I'm calling checkmate, checkmate  
I'm calling checkmate on you, baby  
Oh I'm calling checkmate, checkmate  
You are gonna lose 'cause you chose to make the moves you made Checkmate, checkmate  
I'm calling checkmate on you, baby  
Oh I'm calling checkmate, checkmate  
Girl you will always lose when you choose to make the moves you make And I really don't wanna do this (do  
this)  
Girl, it's breaking my heart in two (in two)  
Yes, I'd give anything to keep on playing here with you And maybe we can pick these pieces up and start again  
another day when things have changed  
But you left me with no other moves to choose Checkmate  
I'm calling checkmate on you, baby  
Oh I'm calling checkmate, checkmate  
You are gonna lose 'cause you chose to make the moves you made Checkmate, checkmate  
I'm calling checkmate on you, baby  
Oh I'm calling checkmate, checkmate  
'Cause you will always lose when you choose to make the moves you make I ran out of options (I ran out of  
options)  
I ran out of options (I ran out of options)
