

Your Love

Dirty Heads

Remember the first time that it set in
We were in the back yard, listening, whoa
We let the songs on the record play
You told me you wanted to stay the night
It seem other thing would be alright, whoa
Our favorite songs on the record play

Your love gets me so high
Like when we're listening to Bob Marley
And you can feel it in the melody
Your love gets me so high
Like when we're listening to Bob Marley
And you can feel it in the melody

He's got us singing like whoa, oh, whoa
You know we got the feeling right
Whoa, oh, whoa, yeah

Remember the first time I brought you in
We didn't have to pass, we were shotgunning
Whoa, you got the peace from the summer wind
I can hear it now when I heard it then
We got this song on our repeat then, whoa
Don't wanna know when my heart will end

Your love gets me so high
Like when we're listening to Bob Marley
And you can feel it in the melody
Your love gets me so high
Like when we're listening to Bob Marley
And you can feel it in the melody

He's got us singing like whoa, oh, whoa
You know we got the feeling right
Whoa, oh, whoa, yeah

You said it's close to perfection
I heard it in your inflection
He's your favorite selection
Of my records collection

So let it spin so don't stop or let it go
Just wanna know if you'll stay with me
Now that thing's I make them stop

Your love gets me so
Your love gets me so
Your love gets me so stoned
Like Bob Marley
And you can feel it in the melody

You got me singing like whoa, oh, whoa
You know we got the feeling right
Whoa, oh, whoa, yeah

Whoa, oh, whoa
You know it's got us feeling right
Whoa, oh, whoa, yeah
