

# Not Out

Greg Laswell

I'm not gonna fall down today  
Instead I will buckle my knees and sway  
Against sweet memories  
Against memories I've gotta get outta here today  
There is too much room in this bed where I lay  
The street buzzes for me below  
Buzzes for me And if the breeze blows me down  
I'll take my time to come around  
But I'm not out, ooh I'm not out, ooh Wish I could pull you down today  
From that storm high up that's taking you away  
What would you say to me?  
What would you say to me? And if the breeze blows me down  
I'll take my time to come around  
But I'm not out, ooh I'm not out, ooh  
I'm not out, I'm not out, ooh And I'm sure that I am tangled up in things  
You said out loud to me so recklessly  
And it's easier to sing the things I wanna say to you  
So I'll sing you're losing me My love you're losing me  
My love are you losing me?  
My love  
(I'm not out, I'm not out, I'm not out)  
(I'm not out, I'm not out, I'm not out)
