

# I Do

## Flagship

Darling, I've heard about you.  
They said keep away from that run around Sue.  
But I've caught myself watching you,  
from across the room.  
And you know you caught my eye  
but I'm so scared of you. Honey, have you heard about me?  
They call me the Jackal, but I'm not as mean as I seem.  
And I know I've caught you watching from across the room  
Lord knows I've been searching for a girl like you. You know I do, I do, I do, I do, I do  
Love you I do, I do, love you. Well I'm praying you are as sweet as you seem.  
'cause you're the prettiest thing I swear I ever did see.  
And you know my heart's aching, so come and dance with me.  
Don't keep me waiting cause I'm fancy free. You know I do, I do, I do, I do, I do,  
Love you I do, I do, love you. The morning is coming and I'm wide awake with you  
And that record is playing our favorite tune.  
But that moment is coming when I have to leave you.  
Yeah that moment is coming and tearing me in two. Because I do, I do, I do, I do, I do.  
Love you, I do I do, love you.  
Because I do, I do, I do, I do, I do,  
Love you I do I do, love you.
