

# Supernature

[DJ Hush](#)

Once upon a time, science opened up the door  
We would feed the hungry fields  
Till they couldn't eat no more But the potions that we made  
Touched the creatures down below  
And they grew up in a way that we'd never seen before Supernature, supernature  
Supernature, supernature They were angry with the man  
'Cause he changed their way of life  
And they take that sweet revenge  
As they trample through the night For hundred miles or more  
You could hear the people cry  
But there's nothing you can do  
Even God is on their side  
(God is on, God is on, God is on their side) Supernature, supernature  
Supernature, supernature Gods will break the ice and throw it in the air  
The creatures will decide who goes where How can I explain? Things are different today  
Darkness all around, no one makes a sound  
Such a sad affair, no one seems to care Supernature, supernature  
Supernature, supernature Better watch out, there's no way to stop it now  
You can't escape, it's too late Look what you've done  
There's no place that you can run  
The monsters made, we must pay Maybe nature has a plan to control the ways of man  
He must start from scratch again  
Many battles must he win Till he earns his place on earth  
Like the other creatures do  
Will there be a happy end?  
Now that all depends on you Supernature, supernature  
Supernature, supernature (Zupernature)  
Supernature  
(Zupernature)  
Supernature  
(Zupernature)  
Supernature Zupernature, zupernature  
Zupernature, zupernature  
Zupernature
