

# Stinker

## Elton John

One, two

One, two

One, two, three, four

Say what you will but I'm a stinker

I come crawling up out of my hole

Dirt in my toes, dirt up my nose

I'm a perfect curse to pest control

Seeds and weeds and muddy meals

Crawling around the earth

Down in the ground where the sun don't pound

Ohh, I hibernated in English turf

Better believe it, I'm a stinker

Burning vermin stink

Watch me get as high as a heat wave honey

Tell me what your hound dogs think

Set in my style with a beady eye

I got connections with the underground

Call me a common rodent boy

Sitting here safe and sound

Better believe it, I'm a stinker

Burning vermin stink

Watch me get as high as a heat wave honey

Tell me what your hound dogs think, yea

Aoo, better believe it, I'm a stinker

Burning vermin stink

Watch me get as high as a heat wave honey

Tell me what your hound dogs think

Some mole hill mother sauntered by

Acting like the ace of spades

Ohh, don't give that cutey no reason to shoot me

When I'm living on the eggs she laid

Ohh, better believe it, I'm a stinker

Burning vermin stink

Watch me get as high as a heat wave honey

Tell me what your hound dogs think

Stinker, stinker

Hey, better believe it, I'm a stinker

Yes me, burning vermin stink

Watch me get as high

Watch me get as high as a heat wave honey  
Tell me what your hound dogs think  
Aoo, better believe it
