

I Don't Mind

[Lisa Ekdahl](#)

Now I don't mind I don't mind
I don't mind I don't mind Over the pathless sky, over the pathless land
That's how we travel, but I've got you to hold my hand
Now I don't mind
How could I mind
You say when we know that we're lost
There's the chance we'll be found Some say I'm working hard, some say I'm just a bum
Some tell me I'm clever, others seem to think I'm dumb
Now I don't mind
How could I mind
I say there's no need to defend what we are, what we've done
Now you entrance my soul
But who lifts our spirit from the ground
What we give we might get in return
Cause the universe is curved
And the world is round Now I don't mind, I don't Mind Over the pathless land, over the pathless sky
Often in silence, cause your eyes reply to mine
Now I don't mind
How could I mind
You say that beyond limitation
I feel we could fly Now you entrance my soul
But who lifts our spirit from the ground
What we give we might get in return
Cause the universe is curved
And the world is round
I don't Mind, I don't mind
You say that beyond limitation
I feel we could fly
I don't mind, I don't mind
You say when we knock there's the chance
That the door opens wide
I don't mind, I don't mind
You say that beyond limitation
I feel we could fly
