

# Clarity

## Zircus

[Intro]Clarity.

Clarity.

Clarity.

[Verse 1: Mac Miller]Figure all this out, I ain't gonna take a charity

Marry me, wish everyone could shake and play the tambourine

Perfect, I know I love you I ain't tryna let those words slip

Pure bliss, I know that we would stay together, we in cursive.

Infatuation, when every single move you make is fascinatin'

Gravitatin', towards anything that gives a sense of happiness

Activist, vove activeness

Sendin' my love for girls who got some cuts at their wrists

Hope you found what you lookin' for, I hope you found what you lookin' for

[Hook]You take away the pain and I thank you for that

If I ever get the chance, bet I'm paying you back

Ima be waitin' for that (x2)

[Verse 2: Mac Miller]Misery, you represent love, you the epitome

So wish for me, I'll come out of nowhere, your epiphany

Disconnect, from everybody who don't understand my vision yet

In a jet, is where my mind is so I light another cigarette

To calm me down, so calm me down

Everybody who can see me now is not around, choppa down

Busy today, but can you tell me how tomorrow sounds?

In between, purgatory ain't as bad as it would seem to be

Live a dream, that's so cliché but I can't tell you what it means to me

[Hook]You take away the pain and I thank you for that

If I ever get the chance, bet I'm paying you back

Ima be waitin' for that (x2)
