

That Ain't Gonna Fly

Gary Allan

Well, I'm gonna show her that I can forget her
That little girls lovin' meant nothin' to me
If you go lookin' at the bottom of a whiskey bottle
That's where I'll be Even though I already know
That ain't gonna fly, that ain't gonna fly
No, it didn't work then and it don't work now But do or die, I'm gonna try
To enjoy the ride all the way down West coast cutie comin' on to me
Mama tried to warn ya California blond
Built like a 10, young like a 20
Party 'til the money is gone It'll be fun but in the long run
That ain't gonna fly, that ain't gonna fly
No, it didn't work then and it don't work now But do or die, I'm gonna try
To enjoy the ride all the way down That ain't gonna fly, that ain't gonna fly
No, it didn't work then and it don't work now But d-d-do or die, I'm gonna try
To enjoy the ride all the way down
To enjoy the ride all the way down That ain't gonna fly
'Cause it ain't gonna fly
