

Treat Me Like Your Money

Macy Gray

Look at that boy he got everything
And when I get through, he gonna have me too
Oh, mom I found a lover for me, yeah
Oh, mother, sister, brother found a lover for me, yeah And then I come to find out he got no romance
(Ooh)
When it comes to love, he's boo boo
He only gets excited when he hears bling, bling yeah Treat me like your money love me, need me, want me
Take me wherever you go
Worship me your whole life, pray for me at night
Treat me better than anyone you know
(Better than anyone you know)(Come here, baby)
Look at me now I got everything
Been with that boy for awhile now
He gives me Bentleys, gives me wedding rings
He gives me inspiration for the song I'm singing And I tired to teach him
How to make romance
But you can't buy love so he don't understand it
And every time he comes, he screams, Finances Treat me like your money love me, need me, want me
Take me wherever you go
Worship me your whole life, pray for me at night
Treat me better than anyone you know
(Better than anyone you know) You spin me right round baby, right round
Like a record, baby right round, round, round
(How you do me)
You spin me right round baby, right round
Like a record, baby right round, round, round
(Spin round around) You spin me right round baby, right round
Like a record, baby right round, round, round
You spin me right round baby, right round
Like a record, baby right round, round, round Spinning, turning like a record that's hot
Girl I love you like my money 'cuz I love you a lot
Now baby, don't ask me because I don't know why
'Cuz it's like that what and that's the way it is I keep your picture right next to my Benjamin Franklin
And if you take my money girl I'll give you a spanking
And you grizzle all my money baby, that's no lie
'Cuz it's like that what and that's the way it is Treat me like your money love me, need me, want me
Take me wherever you go
(Take me wherever you go)
Worship me your whole life, pray for me at night

(Your whole life)

Treat me better than anyone you know Treat me like your money love me, need me, want me

Take me wherever you go

(Wow)

Worship me your whole life, pray for me at night

Treat me better than anyone you know

(Love me, need me, want me, baby) Treat me like your money love me, need me, want me

(Worship me your whole life)

Take me wherever you go

(Pray for me at night baby)

Worship me your whole life, pray for me at night

Treat me better than anyone you know

(Treat me like your money, baby) Treat me like your money love me, need me, want me

Take me wherever you go

Worship me your whole life, pray for me at night
