

That Girl Possessed

[Alexisonfire](#)

We won't forget that girl possessed
We won't forget that girl possessed, possessed Who knew her legacy would destroy her future?
You had such promise before your rape
You had such promise before your rape Born innocent but something had to give
Exploitation, erotica and horror, even a spread in Oui magazine
And then your habit of getting caught, what a frightful night
Born innocent but something had to give We won't, we won't, we won't, we won't forget you
What a frightful night
We won't, we won't, we won't, we won't, forget you
What a frightful night You painted a picture so graphic
That no one could, they can't see past it
You painted a picture so graphic
That no one could, they can't see past it We won't, we won't, we won't, we won't forget you
What a frightful night
We won't, we won't, we won't, we won't forget you
What a frightful night We won't, we won't forget you
What a frightful night
We won't, we won't forget you
What a frightful night We won't forget that girl possessed
We won't forget that girl possessed, possessed
