That Girl Possessed

Alexisonfire

We won't forget that girl possessed

We won't forget that girl possessed, possessedWho knew her legacy would destroy her future? You had such promise before your rape

You had such promise before your rapeBorn innocent but something had to give
Exploitation, erotica and horror, even a spread in Oui magazine
And then your habit of getting caught, what a frightful night
Born innocent but something had to giveWe won't, we won't, we won't, we won't forget you

What a frightful night

We won't, we won't, we won't, forget you
What a frightful nightYou painted a picture so graphic
That no one could, they can't see past it
You painted a picture so graphic

That no one could, they can't see past itWe won't, we won't, we won't, we won't forget you What a frightful night

We won't, we won't, we won't forget you
What a frightful nightWe won't, we won't forget you
What a frightful night
We won't, we won't forget you
What a frightful nightWe won't forget that girl possessed
We won't forget that girl possessed, possessed
