

# Guns Before Butter

## Gang of Four

All this talk of blood and iron  
Is the cause of all my shaking  
All this talk of blood and iron  
Is the cause of all my shaking  
All this talk of blood and iron  
Is the cause of all my shaking I hear some talk of blood and iron  
That's the cause of all my shaking  
The fatherland's no place to die for  
It makes me want to run out shouting I hear some talk of guns and butter  
That's something I can do without  
If men are only blood and iron  
O doctor doctor, what's in my shirt? Just keep quiet, no room for doubt I hear some talk of blood and iron  
That's the cause of all my shaking  
The fatherland's no place to die for  
It makes me want to run out shouting I hear some talk of guns and butter  
That's something I can do without  
If men are only blood and iron  
O doctor doctor, what's in my shirt? Just keep quiet, no room for doubt I hear some talk of blood and iron  
That's the cause of all my shaking  
The fatherland's no place to die for  
It makes me want to run out shouting I hear some talk of guns and butter  
That's something I can do without  
[Incomprehensible] only blood and iron  
O doctor doctor, what's in my shirt? Just keep quiet, no room for doubt
