

# Mountains and Molehills

PJ Morton

There's this girl from a small town  
that doesn't really fit in  
Wants to leave and spread her wings  
but she feels like she's boxed in  
She said "I'll never make it in the big city...  
cause things are always moving fast"

"besides where will I live, where will I work,  
there's so much to search  
and I'm fresh out of cash"  
Stop the excuses don't believe the lies  
make up your mind and try instead of  
Making mountains out of molehills  
when they're not even real  
Need to go and follow your dreams  
it's not as hard as it seems

You've gotta tryyyy  
You've gotta tryyyy  
You won't know unless you try  
You've gotta tryyyy  
You've gotta tryyyy  
You won't know unless you try

Now let's fast forward to the present  
She lives in a high rise way downtown  
Making more money than she's ever made in her life  
Now she just looks back and laughs  
to think she ever thought twice  
She made up her mind  
She did what she could  
She listened to her heart and nobody else  
and she stopped  
Making mountains out of molehills  
when they're not even real  
Need to go and follow your dreams  
it's not as hard as it seems

If there is ever a time you're doubting  
I'll be right here to encourage you

If you feel like you're falling  
Just take my hand, I'll pick you up  
and show you its not as bad as what it seems  
Making mountains out of molehills  
when their not even real  
Need to go and follow your dreams  
its not as hard as it seems

You've gotta tryyyy  
You've gotta tryyyy  
You wont know unless you try  
You've gotta tryyyy  
You've gotta tryyyy  
You wont know unless you try
