

# Nothing Comes Easy

## Godsmack

Beat down and questioned, don't tell me wrong from right  
You never knew the answers anyway  
I never knew you faked your whole life  
Deep down inside me, passed on this hope and pain  
And learn to live without a lost love, that bears a cross of shame  
Every breath that you can take  
Never crosses itself without something changing  
Taking me through all your sins  
Making me live it again  
Nothing in my life comes easy  
You never thought to see me and I never thought to care  
Like I don't exist to you now, I'm making you disappear  
I'm not here to stroke you or to amplify your pride  
And I'm taking you for everything it's worth  
So let it die  
Every breath that you can take  
Never crosses itself without something changing  
Taking me through all your sins  
Making me live it again  
Nothing in my life comes easy  
Don't justify, I don't hear your nothing  
Try to simplify, but you're still in my way  
Out of my way  
Every breath that you can take  
Never crosses itself without something changing  
Taking me through all your sins  
Making me live it again  
Nothing in my life comes easy
