

# When Mama Was Moth

## Cocteau Twins

Sunburst and snow blind  
I'd seen the fear running down my brook  
(I shouldn't fear)  
While mama was clear, one more brook  
(Queer)  
Chills all start screaming  
Ribbed and veined The sunburst and the snow blind  
A chill of fear running down my back  
When mama was moth, I took bulb form  
Body electric  
Writhe in vain Body electric  
Body electric  
Body electric  
Body electric  
Body electric  
Body electric  
Body electric  
Body electric  
Body electric  
Body electric  
Body electric
