If You Could Be Anyone

C21

I don't need to walk away
I don't need to look ahead
'Cuz no matter what I do
My life won't change because of you'Cuz evertime you slam the door
I know that you'll be back for more
Now you really need to realize
You don't have to give me a roar
Now tell meIf you could be anyone
Would you be the one I want
If you could be anyone at all
Who do you wanna be
If you could be anyone would you ever let me down
If you could be anyone at all
Who do you wanna be
Now lets say you know it
Who you really wanna be
Would it change the things you do
And lead to something newI'm not the one to choose
Now it's all up to you
To find a way to realize
What you really wanna do
Now tell meIf you could be.....I just wanna know
Where you wanna go
If you still wanna be there
You've got to let me know
I don't wanna be the one to tell you girl
Who you got to be - got to find your own way
You have to make a choice
To be the one I dream of
