Echo of Love

[CSS](#)

Our love comes in double by all the noise that we make
The always come together and I can tell you there is no mistake
You know if I were you... I'd embrace that condicion
Just ask me to keep on talking 'cuz You know
You love that repetition.Just let it go! Enjoy while it lasts
That looping sound might not be coming back!
When I say "Ah"... You hear it "Ah(Ah! Ah! Ah!)"
When I say "Oh!" It just goes on and on and...Just let it go! Enjoy while it lasts
That looping sound might not be coming back!
It might be below it may come from above!
But you can't hide from the echo of love!Come with me inside this bubble
We are jointed thru the brain
Almost sure this is forever 'cuz we're two fools dancin' with no shame
I already told you... But i'll tell you again...
Running around in circles... Spinning fast...
There's no turning back!Just let it go! Enjoy while it lasts
That looping sound might not be coming back!
When I say "Ah"... You hear it "Ah(Ah! Ah! Ah!)"
When I say "Oh!" It just goes on and on and...Just let it go! Enjoy while it lasts
That looping sound might not be coming back!
It might be below it may come from above!
But you can't hide from the echo of love!
