Heroine

Middle Milk

No need to break it down.
I'm already open.
I need a fix I want to [fly?] on what ever your smoking.
One more hit and I'll be fine.
Gimme some [chokin?]
Let's go right here, we're rockin' and rolling.
Baby you got me going,
You're bad news but your golden.
Like a drug that's kicking in.
Under my skin, because your my heroine.

Under my skin, because your my heroine.
Under my skin, because your my heroine.

Get off on your design,
the body is steaming.
We dance into the night,
while the city is sleeping.

Baby you got me going,
You're bad news but your golden.
Like a drug that's kicking in.
Under my skin, because your my heroine.

Under my skin, because your my heroine.
Under my skin, because your my heroine.
Like a drug that's kicking in.
Under my skin, because your my heroine.
Baby-baby-baby-yeah-you-got-me
Baby-baby-baby-because-your-my-heroin
Baby-baby-baby-yeah-you-got-me
Baby-baby-baby under my skin,
because your my heroin
Baby-baby-baby-yeah-you-got-me
