

The Magic Bullet Theory

Texas Is the Reason

It's all about a secret I have or kept or stole from you.
It's all about not knowing if I missed out something new.

You only know what I know.

I never meant to keep it in the dark
I know it doesn't mean much coming from me.

You want to laugh like they laugh?
Go ahead and laugh your face off, faker.
Just make sure to leave me home.
This is all about a secret I have.
