

# Do You Get Excited

## Roxette

When the day gets dark  
Over thousand streets  
And you feel your heart  
Is a living beat.

When you're all alone  
And you close your eyes,  
Naked to the bone  
The dream comes alive.

Do you get excited  
When i touch you in the night?  
My oh my...

Do you get excited  
When i meet you every night?  
You won't let the night pass you by.

When your body's hot,  
The window's open wide.  
This moment's all you've got  
In this race of life.

When you feel the fire  
Is getting close to you,  
Hey baby, you know  
I'm lonely too.

Do you get excited  
When i touch you in the night?  
My oh my...

Do you get excited  
When i meet you every night?  
You won't let the night pass you by.

I wanna know.
