Baby Bird

Andy Wade

baby bird don't be afraid to fly
Don't let the world just pass you by
Come on come on
It's out there waiting for you
Come on come on
And I am too

Baby bird you need to try
Won't be easy so I won't lie
Come on come on
I need you now
Come on come on
Don't let me down down down

Bridge
I know it's a fight
But it's worth winning
Iv seen the light
And it's just beginning
Don't be afraid I'm right here with you
Thu the night and daytime too

So baby bird I'm by your side
There is no want or need to hide so
Come on come on
Keep your eyes on me
Come on come on
Il set you free

Oh baby bird I love you so
Promise me your love won't go
Come on come on
Let's fly away
Come on come on
And never look back again
