

Get Me (Radio Edit)

Reset

Tell me girl what is wrong.
Tell me why it's been so long
You don't care, you don't mind
allways def and always blind
Feel my anger, feel my pain
When you're gone I feel insane
Let me know I am strong
What you say what`s so wrong
Say what you're feel is it real
It's It just your sex-appeal
It's you`r game and a shame. that you took me for my fame
But I want you to know that I'll never let you go
Even though you will try you will never say goodbye I know you want it.
But you'r never gonna get me
Cause our love is over
I am flying baby, higher baby
I know you want it.
But you'r never gonna get me
Cause our love is over
I am flying baby, higher baby I am strong you`r unique and together we will seek
For the love that we had being happy, being sad
I can`t take this no more lying here on the floor
In my mind I see your face. You're the queen I`m the ace
Follow me and you'll see how I wanted it to be
It's my mission with a vision
I don't need no competition
To confess what I feel
Girl, this time it is for real
So come on, take the chance
In the morning we will dance I know that you want some more
Baby, can't you see the door
There is nothing left to say
Baby I will never go your way I am strong you`r unique and together, we will seek
For the love that we had being happy It's all up to you. I got someone new
Baby you can never get me down
I will make you see you`r not the one for me
Baby that's the way it's got to be
