A View To Save

Rufio

See her move, with the slight of a dress, I am fixed on you
Let me in, I need more than a taste 'cause a glimpse won't do
So I watch, feel my eyes caress every movement
If you only knew what you put me through
Kill the lights, hiding nothing we'll intertwine
Pressing on till the sun arrives shedding light
On a view to save over and over you pull me in
With conviction, you pull me in, I'm caught
Like a drug, so addictive at first that you can't ignore
Feel you pace, through my veins without a trace how I crave for more
I'm slipping away tonight and I've become so mesmerized
I'm burning up inside
Kill the lights, hiding nothing we'll intertwine
Pressing on till the sun arrives shedding light
On a view to save over and over you pull me in
With conviction, you pull me in, I'm caught
You're the face of my addiction
I can't hide these good intentions inside
Kill the lights, hiding nothing we'll intertwine
Pressing on till the sun arrives shedding light
On a view to save over and over you pull me in
With conviction, you pull me in, I'm caught
Kill the lights, hiding nothing we'll intertwine
Pressing on till the sun arrives shedding light
On a view to save over and over you pull me in
With conviction, you pull me in, I'm caught
You're the spark igniting my desire
And I'm burning up with a touch
