Talk Is Cheap

Eva Under Fire

Vs1
I'd like to start before you do
Clarify a thing or two
I know all you want from me
Is all of my sanity
Take this time to really see
I won't give you anything
I know you don't realize
Let me help you see the light

Enough's enough

Chorus
Talk is cheap
I've had enough
I'm too broke
And times are tough

Vs2
I'd like to start
Before you do
Clarify a thing or too
You see
I can tell
You look surprised
I can tell you look surprised
Honestly I'm not sure why
You had to know nobody likes
Your self inflated foolish pride

Enough's enough

(Chorus)

Bridge
I'm broke get away from me
I'm broke get away from me
I'm broke get away from me
Get away get away get away
