

Living in Darkness

Agent Orange

Look at me now, I've got no reason
To be like everybody else
So dumb so happy
I like things that bite Things that creep at night
Everybody's asking me what it's like down there
The concrete floor is cold
The walls are bare I feel safest being alone
Living in darkness
Living in a world of my own I'm so selfish doing everything by myself, I feel so cold
I wanna live to be a couple thousand years old
Ashes to ashes, dust to dust
I thought I knew somebody that I could trust
Now, I'm not so sure I feel safest being alone
Living in darkness
Living in a world of my own One whole lifetime I'm never gonna last
Unless I live until dying is a thing of the past
And all these girls I know, out turning boys into men
I know I am never going down again, never again I feel safest being alone
Living in darkness
Living in a world of my own
